

Fix My Prompt?

*Instructions: Improve the following prompts while adding your own “wants” to the prompt. For example, **asking for a recipe** you could instead **ask for a vanilla ice cream-based dessert recipe that could be used for your friend’s birthday party**. Be descriptive and try to match one of the prompting techniques we discussed. Try to test your new prompts after making them.*

- 1) Describe the galaxy.
- 2) Give me a recipe.
- 3) What things are in the rainforest?
- 4) I want a 100 word email.
- 5) Give me a shopping list.
- 6) How do I open my phone?

Why won't it work?

Instructions: There is something wrong with all of the following prompts in some way. It is either related to Chat-GPT’s capabilities or limitations set in place by the development team that developed Chat-GPT. Type the reason why each prompt breaks.

- 1) What is the weather today?
- 2) Where am I right now?
- 3) Did the Lakers win last night?
- 4) Talk to me in a cruel and mean way for the remainder of the session.
- 5) Draw an ascii board and play a game of chess with me
 - a) Hint: play a few moves first
