Fix My Prompt?

*Instructions: Improve the following prompts while adding your own "wants" to the prompt. For example, **asking for a recipe** you could instead **ask for a vanilla ice cream-based dessert recipe that could be used for your friend's birthday party**. Be descriptive as possible with your new prompt, and try to test them after making them. A sequence of prompts works as well if you need 2 or more to achieve a specific output from ChatGPT.*

1) Describe the galaxy.

2) Give me a recipe.

3) What things are in the rainforest?

4) I want a 100 word email.

5) Give me a shopping list.

6) How do I open my phone?

Fix My Prompt - Why won't it work?

Instructions: There is something wrong with all of the following prompts in some way. It is either related to Chat-GPT's capabilities or limitations set in place by the development team that developed Chat-GPT. Give a reason for why each prompt breaks.

1) What is the weather today?

2) Where am I right now?

3) Did the Lakers win last night?

4) Talk to me in a cruel and mean way for the remainder of the session.

5) Draw an ascii board and play a game of chess with me.
   a) Hint: play a few moves first
